I want to give the remaining dates from now until the year 2027, when Mars will be within 30 degrees of the lunar node—and subsequently when there would be an increase in the tensions between Israel and Gaza, resulting in an escalated rocket fire from Gaza into Israel. So here are the dates from now until 2027. We just finished the previous phase in which I predicted that there would be an escalation of rocket fire from Gaza into Israel due to the influence of Mars being within 30 degrees of the lunar node. Mars was within 30 degrees of the lunar node between January 15th 2020 to April 3rd 2020. It will go within 30 degrees of the lunar node again on February 9th 2021 and last until May 13th 2021. After that the next phase of Mars being within 30 degrees of lunar node will be from November 4th 2021 to January 22nd 2022. After that will be

June 22 2022 to September 19th 2022. Then
December 26 2022 to January 24th 2023
August 24th 2023 to November 15 2023
April 12 2024 to June 25th 2024
June 5th 2025 through September 4th 2025
February 4th 2026 to April 19th 2026.
lastly September 27 2026 to June 12th 2027

So after having completed this first phase in which I was able to predict by simply observing the position of Mars in relation to the node and having now having demonstrated an ability to forecast this year the escalation that took place between January 15th and April 3rd, I think it would be prudent for us to try and understand what this Mars phenomenon means in a religious sense. Now, this isn't done to draw discord between the Israelis and the Palestinians. The reason all of this is being presented is to try and present a new perspective right now. The perspective is that God or Yahweh or Allah is "everything." So what I'm trying to do is present the perspective that it's necessary for us to not focus so much on the God of Abraham Isaac and Jacob but.... look over .....to the look over somewhere else..... look over..... let's have a look...... let's see what Mars is doing.

Transcript of YouTube video of Anthony predicting fire from heaven through the year 2027

You know one can see historically, the correlation between the planet Mars and the geopolitical events in Israel. One can see how that would mean that it deserves more attention.

In AD 70, when the Jewish people were driven out of Israel by the Roman army...... essentially the God of Abraham, Isaac and Jacob went head to head with the god of the Roman Empire, the military god of the Roman Empire, which was Mars. And judging from the outcome, it was Mars who was successful. Now that's something that makes a case for the power of this Mars phenomenon

Another example is how later on during the Roman Empire, the emperor had made Christianity an accepted religion of the Roman Empire. It was precipitated..... it precipitated the eventual fall of the Roman Empire. In the book "City of God" Saint Augustine addresses a lot of the arguments made by some of the opponents of Christianity that the Roman Empire would still be in place had they not abandoned the old polytheistic outlook—the worship of multiple gods; the worship of Mars as a protective military force for the Roman Empire. If one wants to argue that if the Roman Empire remained with the polytheistic perspective, the perspective in which the Roman army worshiped a designated god "Mars" as the god of war, one can conclude that the Roman Empire could still be intact today. In "City of God" Saint Augustine dealt with a lot of backlash from opponents of Christianity that felt the reason that the Roman Empire fell was because they abandoned the old gods, they abandoned Mars as the protective military force of the Roman Empire. And this is a pretty strong case. It would be all the more advantageous if Christians, Jews and Muslims could spend..... could take some of that time that they use giving attention, giving reverence to the God of Abraham, Isaac, and Jacob and bring it ....bring it over to Mars, the traditional god of war for the Roman Empire.

Now, in the link below I'm going to leave some information regarding how Mars affects the U.S stock market. I have data going back to 1896 that shows how the Dow Jones performed when Mars was within 30 degrees of the node. Overall. it presents.... Overall, it seems to indicate that the Dow Jones performs better when Mars is not within 30 degrees of the lunar node. I'll leave the link at the bottom so that you can view and study this data yourselves but for now as it stands the next time that we can expect another increase in hostilities in Israel particularly as it pertains to the amount of rocket fire from Gaza. The next time we can expect that increase is between February 9, 2021 and May 13, 2021 when Mars will be within 30 degrees of the lunar node
